

Name _____ Company _____

Email _____ Phone _____

Project Information

Project Name _____

Project address _____

Site Information

Primary Contaminant(s) of Concern (e.g. PCE, MeCL, Benzene, Jet fuel) _____

Is NAPL present _____

Current or past remedial activities and performance _____

Soil Type (s) _____

Depth to groundwater _____

System Design Information: Circle one (SVE or MPE)

Expected Flow Rate and Vacuum (if applicable) _____

Number of extraction wells _____

Influent Concentration (ppmV) _____

Mass loading rate estimate per hour or day _____

Treatment goal (% or specified limit) _____

Please provide the following information:

****Laboratory analytical results or summary table of all PCOCs in vapor stream****

- Site Location Map
- Site Map showing source / treatment area and isoconcentration contours (if available)
- Site Map showing extraction and monitoring well locations and ROI estimates
- Table summarizing well construction details and GW level history
- Pilot test results (if available)
- Geologic Cross Section
